

Engineer

You are the Engineer.

You have to look at the picture and tell the **Supplier** what bricks to find so they can give the right bricks to the builder.

You have to explain to the **Builder** where to put the bricks.

You can't use your hands, eyes, head! Just words.

SUPPLIER

You are the **Supplier**.

The **Engineer** will explain what bricks you need to find.

You have to listen carefully and give the right bricks to the **Builder**.

Ask questions to check if you're not sure which bricks you need to find.

You can't use your hands, eyes, head! Just words.

BUILDER

You are the **Builder**.

The **Supplier** will give you the bricks you need. The **Engineer** will explain where to place the bricks.

You have to listen carefully so you can follow the instructions.

Ask questions to check if you're not sure what they mean.

You can't use your hands, eyes, head! Just words.

Wall of Words

What new words are you learning while you do lego? Put them on post-it notes to build a wall. Talk about what the words mean, make sure you know how to say and write them, and then make sure you can remember them next time.

I'm confused by what you said.

Explain it again.

What do you mean?

I'm not sure what you want me to do. Please clarify.

Can you repeat that?

That was too much information in one go. Break it down please.
